The Port of Gdynia remains one of the most important Baltic container ports. Besides, Gdynia is a modern universal port complex with two container terminals, dedicated ro-ro and ferry terminals, and several bulk cargo facilities, handling big variety of grain, fertilizers, coal and others.

After 1990, Port of Gdynia always aimed at the development of containers, Ro-Ro and ferry traffic however also carefully maintained universal character of its facilities with infrastructural investment projects substantially supported by European Union Cohesion Fund.

The Port has a policy to create convenient conditions for investors, what results with the presence in Gdynia of such important world terminal container operators like Hutchison Port Holdings and ICTSI.

Gdynia offers container feeder connections with all most important European hub ports. Baltic Container Terminal and Gdynia Container Terminal handle vast majority of all containers transported to and from Poland by sea. Bearing in mind growing domestic flow of containerized cargo, Port of Gdynia started to invest within the infrastructure of 30 ha logistic center area, which is going to be ready for renting in the next two years. The new storage warehouse of 19000 sqm, actually being under construction, is to be completed in 2014. Other facilities will be completed according to the customers needs.

The Port of Gdynia Authority sincerely welcomes each customer interested in locating their business in the port area.

格丁尼亚港是波罗的海最重要的集装箱港口之一。而且格丁尼亚还是现代化的国际港口城市，拥有两个可停靠滚装船的集装箱码头、渡轮码头和多个散装货物设施，用于运输粮食、化肥、煤炭等货物。

1990年后，格丁尼亚港一直致力于发展集装箱运输、滚轮船和轮渡运输，但也保留了原有设施的普遍特性，其基础投资项目主要由欧盟聚合扶持资金赞助。

港口的政策也为投资者提供了便利的条件，汇聚了重要的世界级集装箱码头运营商，如和记黄埔港口和ICTSI。

格丁尼亚与欧洲最重要的枢纽港联手提供货柜集散船连接服务。波罗的海集装箱码头和格丁尼亚集装箱码头操控了通过海运方式来往波兰的大多数集装箱。秉持发展国内集装箱物流的目标，格丁尼亚港开始投资30公顷的物流中心基础建设，该物流中心将在未来两年内出租。同时，19000平方米的新储存仓库正在建设中，预计于2014年竣工。其他设施将根据客户需求陆续完善。

格丁尼亚港务局真诚欢迎每个顾客入驻格丁尼亚港开展业务。
